GH/OHA	Worldwide	S Mowafy	Single Holder Procurement and Supply Chain Assistance IQC	SOL-OAA-12-000128 - DRAFT SOW posted for comment 4/12/13 - Single Award IDIQ for Commodity Procurement and Supply Chain Assistance: This activity will provide a comprehensive array of services for USG health commodity procurement and related supply chain assistance encompassing the different elements of a comprehensive supply chain (e.g. quantification/forecasting, procurement, transportation, warehousing, and information systems). The IDIQ holder will be expected to manage the full range of supply chain services - from quantification, procurement, and warehousing to delivery of product to the USG-designated client. The successful implementation of these services depends upon the IDIQ holder's ability to minimize lead time for field programs while maximizing overall value-for-money performance on delivery of quality essential health commodities. The tasks of this IDIQ are integrally related and implemented through a single award to optimize overall performance and accountability of what, by best practice, should be a continuous, seamless, operational supply chain. The IDIQ will work with USG country programs to improve country counterpart systems and increase their capacity to more fully conduct this procurement and distribution work on their own. The IDIQ contractor is expected to work with the Quality Assurance contract holder to ensure that the quality of products purchased meets USG standards. In addition, the IDIQ holder will provide a required set of data to the Business Intelligence (BI) contractor. GH/OHA	Worldwide	S Mowafy	Quality Assurance	SOL-OAA-13-000999-AC posted for comment 04/12/13; Quality Assurance Award: The Quality Assurance (QA) award will promote the effectiveness and efficiency of USAID QA services by combining and coordinating QA activities across health elements. This activity will provide independent, essential, comprehensive quality assurance/control services covering the different health elements in the Bureau.	N/A (Quality Assurance) - SCH				\$25,000,001-\$75,000,000	Contract			
GH/OHA	Worldwide	S Mowafy	Business Intelligence	Business Intelligence Award: The Business Intelligence (BI) award is expected to collect and integrate data from multiple partner systems and generate reports and alerts based on established thresholds. By embedding BI into existing process applications, USAID's control, management, and ownership of information will be enhanced to facilitate information sharing and coordination across health elements within the Bureau's supply chain.	N/A (Business Intelligence) - SCH				\$10,000,001-\$25,000,000	Contract			

GH/OHA	Worldwide	S Mowafy	Supply Chain Assistance	Multiple Awards for Specialized Supply Chain Assistance: These awards are anticipated to be made through annual program statements (APS) to invite and encourage organizations with specialized capabilities. One APS will seek capabilities for research, innovation and evaluation, and access to the state-of-the-art in supply chain management from academia as well as the private, commercial, and other sectors. Another possible APS will be for organizations in the "global south" with demonstrated capabilities in supply chain management, assistance, and/or training, to support local capacity building, and provide for south-to-south assistance and access to regional specializations. Other awards may be made in areas of specialization (e.g., management information system, information technologies) if there is sufficient demand from field.	N/A (Supply Chain Assistance) - SCH				\$25,000,001-\$75,000,000	Contract			
GH/OHA	Worldwide	S DeSilva	AIDS FREE	The Strengthening High Impact Interventions for an AIDS-Free Generation (AIDSFree) Project is intended to strengthen the technical competence and capacity of host governments and civil society to implement evidence-based HIV programs based on the best scientific and programmatic knowledge available globally in order to achieve an AIDS-Free generation. AIDSFree will focus on strengthening high-impact interventions that, particularly when implemented together, provide the potential for ending the epidemic: PMTCT of HIV; VMMC for HIV prevention; and comprehensive prevention programming. AIDSFree is expected to be flexible and responsive to rapidly evolving developments in HIV/AIDS research and global policy dialogue, and to focus on building the capacity in host countries to assume greater technical and programmatic management of the HIV response. GH/OHA seeks to support an organization with the purpose of translating new research into high-impact programs implemented by local partners and driving innovative but integrated approaches to the results areas above.	N/A (AIDS FREE)	2014			\$75,000,001-\$500,000,000	Cooperative Agreement	11/15/2013		Change Award Type from TBD to Cooperative Agreement Updated project description and updated projected release date
